MaiMed® Protect – ChemGuard PF Chemical full protection glove

Special features

The MaiMed®Protect - ChemGuard is a high quality and powder free nitrile glove. With a shaft length of approx. 300 mm and a material thickness of 12 mil (more than twice as thick as a standard nitrile glove), it is very robust and resistant. Its highly textured surface texture provides optimum grip in dry as well as wet conditions.

Main application area

The glove fulfils the highest safety standards for handling hazardous chemicals. The main areas of application include industry/manual work with a focus on the chemical industry, the food industry, laboratory work/ research and cleaning of buildings.

eClass: 40-01-12-06

Colour: blue ●

i Full protection for handling chemicals

NON-STERILE – Pack of 50 in a dispenser box
